## WORK EXPERIENCE

**Next.js projects** JULY 2023 - Currently  
myself s.r.o.

Next.js I love for aggressive **caching**, and I can build **fullstack** applications. With help of Prisma DB. My biggest project is **ChatGPT** copy with clerk auth. I have many projects, for example **Foodie app**, **Evento** (party) app but every online project needs DB hosting. I used PlanetScale, Vercel for free hosting. So I can't public more projects.

**React-native projects** JAN 2024 - FEB 2024  
myself s.r.o.

I did 5 awesome mobile projects for **Apple and Android devices**. For example game, finance, food and drinks, places categories app. In that apps I use **permissions for images, camera, notifications, location**. Also connecting on **Firestore DB**, and another on **SQLite**. Using **React Navigation** for multiple pages.

**React projects** JAN 2023 - FEB 2024  
myself s.r.o.

In moment I discovered **React**, I stucked with that. I spend there most of the time. I loved that development speed. I created many apps, with help of **React**. From **E-shop** to **restaurant menu**. From React I can deal with, **DRY methods**, custom hooks, **useState, useEffect, useMemo, useCallback, useRef** is a must. I use deal with **Zustand/Redux/Context API**. Love use **modern GSAP or Frame-motion** for modern web animations.

**Modern JS/TS projects** MAY 2022 - DEC 2022  
myself s.r.o.

This started my passion for JavaScript and web apps passion. I started learning **modern JS**, with basic **to-do list**, then **game**, later **banking app and webpage**. Only with JS with modern **ES6 modules**, also knowledge of **object oriented programming**.

**Vanilla JS projects** JAN 2022 - MAY 2022  
myself s.r.o.

I started from **vanilla JS, with JQuery**. Where I public my first web, with art, where for back-end I used a little bit of **PHP**.
